We have kept the model as simple as possible, but younger children will need help.

- Colour before cutting out.
- Fold along the dotted lines.
- Assemble using glue or double-sided tape (ordinary sellotape is not suitable).
- Glue in a cork 30mm high to support the mast.
- Use a wooden skewer or something similar for a mast.

Now something harder ...

Can you help Paul sail his boat to Cyprus?
(you can't go past the fish)
